[www.myflyshop.com](http://www.myflyshop.com)

Dear Customer,

It is the season for our annual Holiday sale flyer. In the next few pages we hope you find something to be excited about. **THANK YOU** for being a part of our family—**MERRY CHRISTMAS** and **HAPPY NEW YEAR!**

Our annual Customer Appreciation Christmas Party will be on Sunday December 10th at our Surrey location from 3-7pm.

**SPEY DAY 2024.** On Sunday April 14th we will host our annual Spey Day—pencil us in and stay tuned for more information once we confirm the location and presenters. Follow us on Instagram and Facebook, and join our e-mail list for updates (send an e-mail to [sales@myflyshop.com](mailto:sales@myflyshop.com) and ask to join our mailing list or sign up on our website). It was awesome to have this event again last year after a long hiatus and we are stoked to do it again!

It's Kiritimati time (kiri "s"ma "s"). Christmas Island reopened in May of 2023 and we are excited to get back there for some of the best walk and wade bonefishing in the world. There were two last minute cancellations for this January 9-16, 2024 so an opportunity for you to go to this amazing place at a discounted rate. If you would like more information please contact Ryan at our Surrey store. We have a few future trips booked as well— November 5-12, 2024, March 25-April 1, 2025, and March 10-17, 2026. For more information or to sign up for one of these trips please contact Ryan at our Surrey store or visit our website.

A reflection on fishing 2023—in summary, optimism abounds; we fished, we smiled, and we caught. Early season predictions were glum with reports of winterkill approaching astronomical and some of the "favorites" including Roche, Red, and Tunkwa with full or substantial kills. Luckily many of the other lakes fished really well and most fishers came home with great stories of success. What we did not have this year was water. Throughout the province, many new records were set for the lowest rainfall on record and where that did not happen, 2023 was a close second in most cases. Even here in metro Vancouver we were less than 60% of our average rainfall. This makes for some extremely low water. Low water means clear water and often spooky fish. Hence river fishing was challenging and those that took the time to remain as subtle as possible while wading and casting were rewarded. No rain also means fire threats, and those we had in scary numbers with 2023 being the most expensive, most destructive wildfire season on record. This posed some travel issues in the later summer and kept our campsites campfire free for most of the year. Despite this, great fishing reports trickled in all season long from all around the province—lake, stream, and river; rainbows, cutthroat, bull trout, steelhead, and salmon—memories were made! The Skagit Valley Provincial Park remained closed all season but the province has stated they plan to have it open before next summer. Our fingers are crossed. We are slowly losing salmon and steelhead opportunities so please continue to **DO WHATEVER YOU CAN** to educate yourselves, get involved (mentally, physically, emotionally and **MONETARILY**). Find a local hatchery, fishing club, non-profit organization and/or guide association that is active in their fishing community, and join in as every little bit helps. We all need to be foot soldiers on this matter. Seek knowledge—as a whole we do not know the questions let alone the answers. And please remember to approach these issues and all of the groups involved with kindness and an open mind.

At our Surrey store we have a relatively new face in the house, Mike. He has been with us now for almost 18 months and has been a blessing! If you have yet to meet him come on by and say hi. Our long time part time staff Todd, has come on in a more full time role as of late too. Another great attitude, big smile, and a young exuberance for fishing that is contagious. There are a few other new faces to mention here—Frank and Phil at our Broadway location, awesome people with knowledge to share and friendly faces.

We have seen a small fall in the value of the Canadian dollar, and many of our suppliers have raised their prices 5-10% - that ugly word inflation. We do our best to carry a broad range of inventory with price points to suit all budgets. And, we love to do our best to help you put together your dream fly rod combo regardless of your budget. All we ask is you share some of your fishing stories. Our stock levels are high, and inventory is much easier to get so let us know if we can help you find your next piece of fly fishing tackle.

**NEW PRODUCTS** and highlights for this winter and upcoming year. Another year of our suppliers being gentle with the new releases, not sink the boat so to speak. That being said there are always a few new and fun tools (toys / jewelry) to be had. **RODS** Winston has the new (and awesome) Air 2 Max saltwater rods; Hardy the new Marksman and Marksman X series rods, Scott has released a new two handed, spey rod series, the SWING, G. Loomis had a mid season addition in the IMX-PRO V2 series; In spring 2024 Thomas & Thomas is releasing their new Avant II, and Sage has a new two hander. **REELS:** Nautilus has improved the NV-G series with their new GTX, GTR, and GTS series reels. These will be available early in the new year; Hardy has the limited edition Royal Commemorative Set as well as a 1912 Narrow Spool Perfect with red agate line guide. Ross has a new Evolution FS reel, Lamson new LIQUID S, REMIX S, and LIQUID S MAX reels. **FLYLINES:** New Airflo Ridge Tech 2.0 Stillwater lines; RIO Scandi LAUNCH heads; BRIDGE TORRENT spey lines designed by our very own "Timmy".

A PDF version of this flyer is posted on our website. This years sale flyer is packed with amazing deals on new and used items. If you see anything you like contact us quickly before it's gone. When it comes to clothing and fly lines we have much more than we can print here so please visit the Clearance section on our website to browse. Call toll free at (800) 663-6407, direct: (604)588-2833, e-mail [info@myflyshop.com](mailto:info@myflyshop.com), or visit [www.myflyshop.com](http://www.myflyshop.com) for more information.

***Warmest holiday wishes from Ryan, Tim, Catherine, Aaron, Mike, Todd, Grahame, John, Frank & Dave***

# New & Coming Soon To A Fly Shop Near You

*We are officially a Nam Products Dealer!  
A newer rod company based out of Norway, designing some wicked new single hand and double handed rods! We are also stocking a new Japanese flat mono running line distributed by Nam called Hazumi Running Lines. Come on by and check them out!*

## Royal Commemorative Set

The Hardy Perfect has remained in production across the reigns of seven Kings and Queens. **HARDY**  
Therefore, we found it fitting to offer this limited edition set of Perfects as a memorial to mark the passing of Britain's longest serving monarch and the succession of her son, Charles III.

Sold as a set, with only 250 sets available worldwide. Features a 3 inch Perfect with 1912 check, red agate line guard in a polished silver finish. And a 4 inch Perfect with salmon check system in a polished silver finish. Supplied in a leather display case with commemorative coins.

The all-new, and very anticipated **BRIDGE TORRENT** line hit our shelves this fall and flew off of them so fast we couldn't keep up! So we've got a few left in some smaller sizes and are eagerly awaiting some more in the new year!

CND Rods were also a new product for us this year thanks to Tim, and are proving to be extremely popular and a perfect pairing for Bridge Lines.

## FORRA BOOTS by FITWELL

Engineered for trail and river, the Forra Wading Boots are lightweight without sacrificing performance. Built with Vibram Mars sole technology for traction and grip, these boots feature a high ankle, sturdy toe box and adjustable, noncorrosive lacing system for support and durability. Made in ITALY

**\$375**

## LAMSON REELS

All new **LIQUID S** and **REMIX S** reels have larger diameters, larger arbors, and increased strength to weight ratios. And, the arbor shape has been redesigned for clean spooling, and the drag knobs have more "grip". Coming soon to a fly shop near you!

## New AIR 2 MAX & MICROSPEY AIR 2

Utilizing award-winning materials in conjunction with our fastest and most powerful graphite tapers to date, the new AIR 2 MAX series optimizes performance in Saltwater.

The new MICROSPEY AIR 2 has an overall lighter weight, faster recovery, smoother connection and sweeter feel!

## SWING

To catch steelhead and salmon, you need to swing the fly at the right angle, the right depth, and the right speed. The right rod can help solve that puzzle.

Introducing the all new double handed series from Scott!
